

PharmASSIST™

Information and data service providing monographs on 24,000 approved prescription and over-the-counter medications and other pharmaceuticals.

PharmASSIST™ is a pharmaceutical drug resource providing reports on known drug side effects and drug interactions.

- Taking pharmaceutical medication can seriously affect performance.
- Don't take the risk – call PharmASSIST™
- Aimed at improving health and safety in the workplace, PharmASSIST™ is key occupational support provided by ScreenSafe UK.

Information supplied by PharmASSIST™ is not intended to be a substitute for professional medical advice, diagnosis, or treatment and is not a substitute for a medical exam, nor does it replace the need for services provided by medical professionals.

The absence of a warning for a given drug or drug combination should in no way be construed to indicate that the drug or drug combination is safe, effective or appropriate for any given patient and the entire monograph for a drug should be reviewed for a thorough understanding of it's actions, uses and side effects.

ScreenSafe UK does not assume any responsibility for any aspect of healthcare, including but not limited to drug information available through "PharmASSIST™"
